\* All performance results, shown on this page, reflect the deduction of the following expenses: Annual Fund Operating Expenses (including 12b-1 fees) of each Fund, the 1.25 Mortality and Expense Risks Charge and the 0.15% Administrative Expense Charge. These performance results do not reflect the expenses associated with any optional death benefit or living benefit. Selection of an optional benefit would reduce the performance shown.

(1) The performance results shown on this page are hypothetical. Hypothetical results reflect the historical performance of each underlying fund prior to its "Variable Account Inception Date", the date the fund was first offered as an investment option in the variable separate account containing Futurity Variable Annuity. For Funds in existence for less than one year, performance results are not annualized.

(2) Performance results in these columns are not reduced by any withdrawal charges or the Annual Account Fee.

(3) Performance results in these columns are reduced by the maximum 6% withdrawal charge which declines from 6%, 6%, 5%, 5%, 4%, 4%, 3%, 0% over 7 years, and the \$30 Annual Account Fee.

(4) The Fund Inception Date is the date on which the Fund commenced investment operations. Hypothetical returns are computed for the "Life" of the Fund, i.e., since the Fund Inception Date.

**(b) Investment in a money market fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency, and although the fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the fund.**

(e) The performance shown reflects a non-recurring accrual made to the series on July 28, 2004, relating to MFS' revenue sharing settlement with the Securities and Exchange Commission, without which the performance would have been lower.
