(1) Hypothetical results reflect the historical performance of the underlying investment options prior to the inclusion of the fund as a separate account funding the variable annuity. Results reflect the 1.00% mortality and expense charges and the 0.15% administration fee. These results do not include the \$50 contract fee. If surrender charges and contract fee were included, it would reduce the performance shown.

(2) Hypothetical results reflect the historical performance of the underlying investment options prior to the inclusion of the fund into Sun Life Assurance Company of Canada (U.S.) Separate Account F, which funds the variable annuity. The inception date for Separate Account F is November 30, 1989. Adjusted results reflect underlying fund expenses, the 1.00% mortality and expense charges, the 0.15% administration fee and the \$50 annual contract fee. Hypothetical returns computed by applying charges and expenses to actual underlying funds since the inception of investment operations.

**(3) Fund Inception Date represents the date on which the underlying investment option commenced investment operations.**

**(b) Investment in a money market fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency, and although the fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the fund.**

(e) The performance shown reflects a non-recurring accrual made to the series on July 28, 2004, relating to MFS' revenue sharing settlement with the Securities and Exchange Commission, without which the performance would have been lower.

**NOT FDIC/NCUA INSURED • MAY LOSE VALUE • NO BANK/CREDIT UNION GUARANTEE • NOT A DEPOSIT
