(1) Hypothetical results reflect the historical performance of the underlying investment options prior to the inclusion of the fund as a separate account funding the variable annuity. Results reflect the 1.05% mortality and expense charges, the 0.15% administration fee and the 0.15% distribution fee (for contract owners under age 76 on the open date). These results do not include the maximum 8% surrender charge which declines from 8%,8%,7%,6%,5%,4%,3%,0% over 7 years or the \$50 contract fee. If surrender charges and contract fee were included, it would reduce the performance shown. The Secured Returns benefit is not included within the performance results. If it was elected, this rider would reduce the performance shown.

(2) Hypothetical results reflect the historical performance of the underlying investment options prior to the inclusion of the fund into Sun Life Assurance Company of Canada (U.S.) Separate Account F, which funds the variable annuity. The inception date for Separate Account F is November 30, 1989. Adjusted results reflect underlying fund expenses, the 1.05% mortality and expense charges, the 0.15% administration fee, the 0.15% distribution fee, the 8% surrender charge which declines from 8%,8%,7%,6%,5%,4%,3%,0% over 7 years and the \$50 annual contract fee (for contract owners under age 76 on the open date). Hypothetical returns computed by applying charges and expenses to actual underlying funds since the inception of investment operations.

**(3) Fund Inception Date represents the date on which the underlying investment option commenced investment operations.**

(e) The performance shown reflects a non-recurring accrual made to the series on July 28, 2004, relating to MFS' revenue sharing settlement with the Securities and Exchange Commission, without which the performance would have been lower.

(f) Formerly known as Alliance Bernstein Global Technology.

(g) Formerly known as AIM V.I. Capital Appreciation Fund (Series II).

**NOT FDIC/NCUA INSURED • MAY LOSE VALUE • NO BANK/CREDIT UNION GUARANTEE • NOT A DEPOSIT  
NOT INSURED BY ANY FEDERAL GOVERNMENT AGENCY**

**Please see the prospectus for investment risks associated with each investment option. The performance data quoted here represents past performance. Past performance is no guarantee of future results. The investment return and principal value of an investment in a variable annuity will fluctuate and units, when redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance quoted.**

(4) Historical results reflect the performance of the portfolios since they were added to Sun Life Assurance Company of Canada (U.S.) Separate Account F, since its inception on November 30, 1989. Results adjusted to reflect the portfolio management expenses, the Futurity Select Seven Variable Annuity \$50 annual contract fee, the maximum 8% surrender charge which declines from 8%, 8%, 7%, 6%, 5%, 4%, 3%, 0% over 7 years, the 1.05% mortality and expense charges, the 0.15% administration fee and 0.15% distribution fee (for contract owners under age 76 on the open date). Historical returns computed by applying charges and expenses to portfolios in the separate account. The Secured Returns benefit is not included within the performance results. If it was elected, this rider would reduce the performance shown.

(5) Portfolio Inception Dates represent the date on which the series were included in Separate Account F which funds the variable annuity.

**(b) Investment in a money market fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency, and although the fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the fund.**

(c) Based on seven days ending on 08/31/2010 with dividends annualized. The yield quotation more closely reflects the current earnings of this Money Market Fund than the total return quotation.

**Please see the prospectus for investment risks associated with each investment option. The performance data quoted here represents past performance. Past performance is no guarantee of future results. The investment return and principal value of an investment in a variable annuity will fluctuate and units, when redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance quoted.**

This report is not complete unless all pages are included.

**IMPORTANT DISCLOSURES**

**This material must be accompanied or preceded by a prospectus. You should consider the investment objectives, risks, and all charges and expenses of any investment. The prospectus contains this and other information about both the variable annuity product and the underlying investment options. Prospectuses for both the variable annuity and the investment options are available at [www.sunlife-usa.com](http://www.sunlife-usa.com). Read all prospectuses carefully before investing or sending money.**

**The results reflect the basic death benefit charge for owners under age 76 at issue. If additional optional riders are selected and/or the higher mortality and expense risk charges applied, the performance results would be lower.** All charges for optional riders are listed below or on the next page. All performance results include investment management expenses including 12b-1 fees. There is a 10% federal penalty tax on certain withdrawals of earnings prior to age 59½, and all withdrawals are subject to qualified retirement plan provisions. Taxes are due upon withdrawal from the contract. Withdrawals may proportionately reduce the death benefit and other optional benefits if selected.

Results for portfolios or underlying investment options less than 1 year old reflect total return, not annualized return as reflected in the life of fund column.

Investments may have differences in guarantees, fluctuation of principal and/or return, insurance, tax features, etc.

- **Investment in a money market fund is not insured or guaranteed by the Federal Insurance Deposit Corporation or any other government agency, and although the fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the fund.**
- High yield bonds carry greater credit risk than higher quality bonds.
- Small- and emerging-growth company stocks may carry more risk and volatility than larger, more established company stocks.
- International investing is subject to political changes and fluctuations in currency.
- Real estate investments involve risks such as refinancing, economic impact on industry, changes in property values, dependency or management skills and risks similar to small company investing.
- Sector portfolios and concentrated portfolios with fewer securities may be subject to greater price volatility.

Although some underlying investment options may have names or investment objectives similar to retail mutual funds managed by the same portfolio manager, these portfolios will not have the same underlying holdings or performance as the retail mutual funds.

Variable annuities are intended for long-term retirement planning goals. Futurity Select Seven Variable Annuity variable annuities are combination fixed/variable annuity contracts with a market value adjustment issued by Sun Life Assurance Company of Canada (U.S.) and Sun Life Financial Distributors, Inc. Both companies are members of the Sun Life Financial group of companies. For complete information including investment objectives, risks, and all charges and expenses such as the mortality and expense risk, optional death and living benefit charges, and surrender and investment option charges, please see the prospectuses for both the variable annuity product and the underlying investment sub-accounts. Please read all prospectuses carefully before investing or sending money.

The policy form number(s) for the Futurity Select Seven Variable Annuity Variable Annuity are RCHII-GR-CERTPR-02, RCHII-GR-CERT-02, RCHII-IND-MVAPR-02, RCHII-IND-MVA-02.
